PROFILE

After many years in retail, leadership and visual merchandising, I decided to pursue web development. I enjoy the intersection of technology, design and user experience, and I like understanding the full process, from the interface to the functionality behind it. I am now looking for an internship where I can learn from experienced developers and contribute to real projects.

EDUCATION

WEB DEVELOPMENT, FULLSTACK Yrgo · 2025–2027

Higher vocational education covering frontend and backend development, programming languages and frameworks, databases, APIs and team projects. Internship period: 23 November 2026 – 28 May 2027.

VISUAL MERCHANDISING – UNIFIED COMMERCE IHM · 2023–2025

Studies focused on visual merchandising, customer experience and omnichannel retail, connecting physical stores with digital channels. Worked with concept development, e-commerce, visual communication and digital tools including CMS platforms and 3D visualisation. This is where my interest in building digital solutions began.

WORK EXPERIENCE

RETAIL, LEADERSHIP & VISUAL MERCHANDISING 2010–2024

Around 15 years of experience in retail, primarily at NK in Gothenburg. Previous roles include store manager, sales coach and visual merchandising. Experienced in leading and developing teams, customer experience, daily operations and digital retail systems.

CURRENT PART-TIME ROLES ALONGSIDE STUDIES

Åhléns (since June 2026) and Supered Living Co. (since August 2024) – sales.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Angular Backend: C#/.NET, PHP, Node.js, REST APIs
Other: WordPress, Laravel, Supabase, Git/GitHub, databases and deployment
